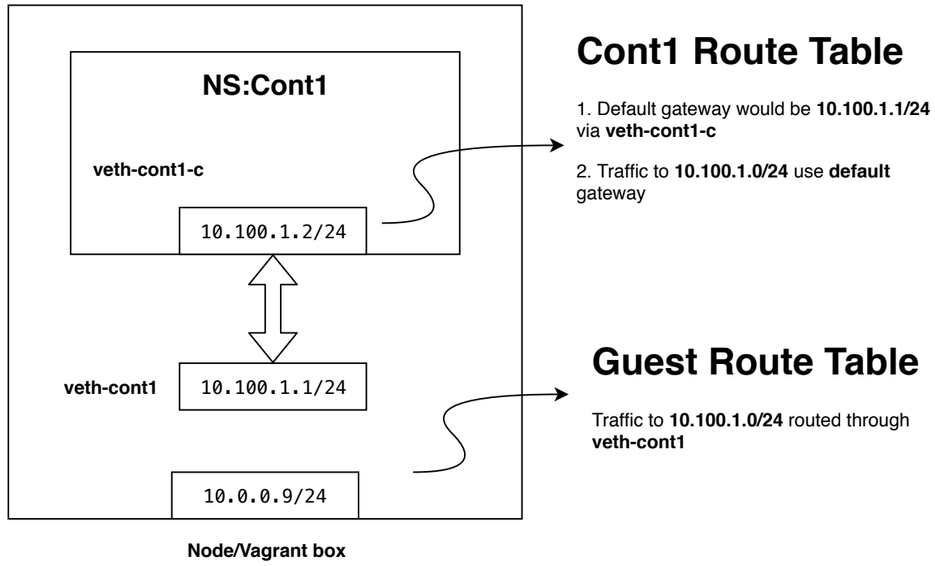
Single Node Single Network Namespace



Cont1 Route Table

1. Default gateway would be **10.100.1.1/24** via **veth-cont1-c**

2. Traffic to **10.100.1.0/24** use **default** gateway

Guest Route Table

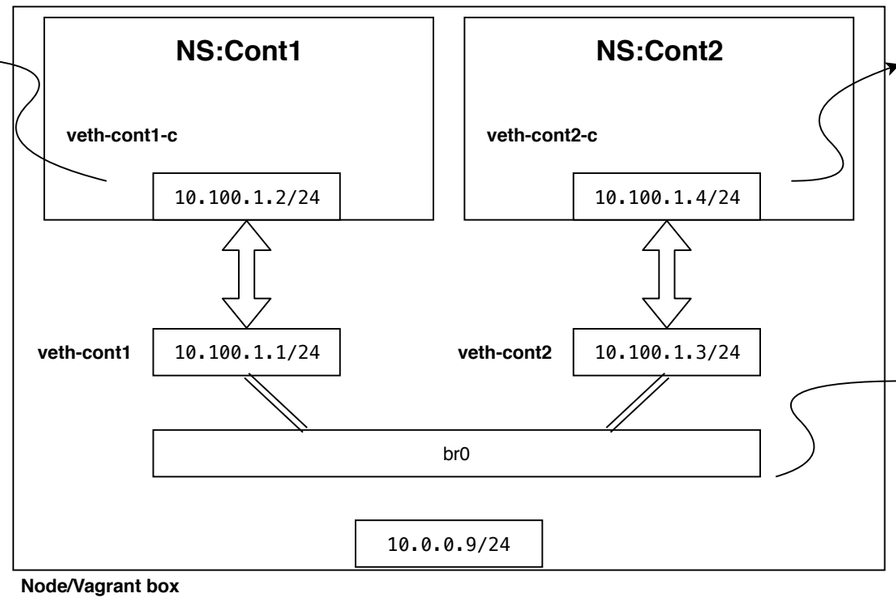
Traffic to **10.100.1.0/24** routed through **veth-cont1**

Single Node Multiple Network Namespace

Route Table

1. Default gateway would be **10.100.1.1/24** via **veth-cont1-c**

2. Traffic to **10.100.1.0/24** use **default** gateway



Route Table

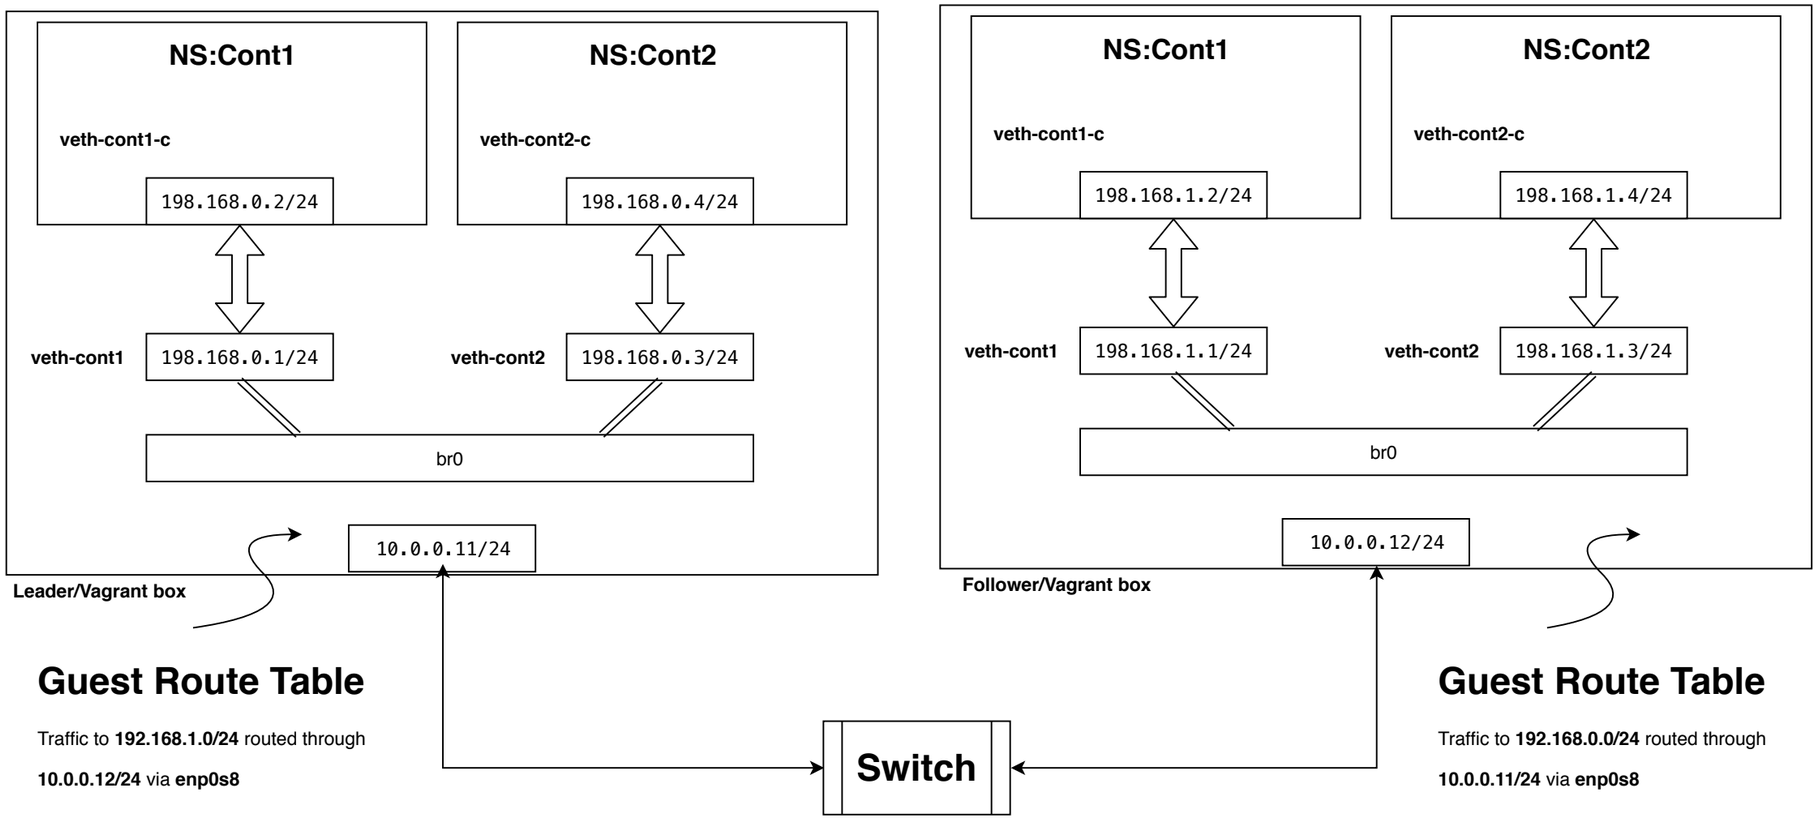
1. Default gateway would be **10.100.1.3/24** via **veth-cont2-c**

2. Traffic to **10.100.1.0/24** use **default** gateway

Guest Route Table

Traffic to **10.100.1.0/24** routed through **br0**

Multiple Node Multiple Network Namespace - L2



Guest Route Table

Traffic to **192.168.1.0/24** routed through

10.0.0.12/24 via **enp0s8**

Guest Route Table

Traffic to **192.168.0.0/24** routed through

10.0.0.11/24 via **enp0s8**
